QUALITY OUTCOMES EVERY DAY

PAM HEALTH
REHABILITATION HOSPITAL
OF FARGO

WE ARE PLEASED TO SHARE THE FOLLOWING PATIENT SUCCESS STORY.

Donna Smith

Reason for Admission: Hip fracture
Length of Outpatient Treatment: 3 days
a week for 2 weeks
Discharge Location: Home to Texas

Donna is a 75-year-old female who was on vacation when she broke her hip. Up until that point she was very active, mountain climbing and mountain biking. She was so grateful for a positive inpatient experience at PAM Health Rehab of Greater Indiana. When it came time to discharge and return home, she was happy to find out that there was a PAM Health location in Fargo, where her daughter lived. Rather than returning to Texas immediately, she participated in PT and OT on an outpatient basis at PAM Health Fargo. A retired ranger for the National Park Service, Donna was happy to return home to Texas after two weeks in outpatient therapy.

“Without question, I give a 5-star rating to PAM Health Rehab of Fargo. The entire PT and OT staff are excellent — challenging me and pushing me as far as I’m willing to try to go in rehab after my total hip replacement. All other hospital staff have been very helpful and professional. I will not hesitate to recommend PAM Health Rehab Hospital for anyone who needs therapy. What a fabulous facility!”
